RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 376 pages. Dimensions: 9.7in. x 7.4in. x 0.8in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: . . . plat during the 5-year period from July, 1912, to June, 1917, inclusive. In figure 12 the graphs representing the monthly production of fruit of the Green and Tree-Ripe grades are arranged by strains from left to right, according to their rank for average total production as shown by Table XI. To bring out more closely the variations in production each month between the trees of the different strains the data were rearranged as shown in figure 13. Each graph represents the proportions of fruit produced during a month by the trees of the various strains, which are presented in each month in the same order from left to right as in figure 12. The low production in January of fruits of both the Green and TreeRipe grades by the trees of all the strains is quite marked, and it is probable that if all conditions had...
