This is a tribe of plants growing on moist lands, having cylindrical or grassy leaves, and, except in Asphodel, brown flowers. The true rushes (Juncus) are social plants, often covering large moist districts; many of them known in the coldest parts of the world, and a few in the tropics. The stems of some are used for making mats and the wicks of candles. With few exceptions, the species are perennials. The popular notion of the Rush tribe connects its members with the Grasses through the Sedges. A certain superficial resemblance may justify this, but the botanical tyro who uses the pocket-lens and pulls the inflorescence carefully to pieces will soon...
