Stackpole Books. Hardback. Book Condition: new. BRAND NEW, The Counterinsurgency Challenge: A Parable of Leadership and Decision Making in Modern Conflict, Christopher D. Kolenda, In the not-too-distant future, an American military commander is preparing to take charge of counterinsurgency operations in the Narabad Province of remote and mountainous Khanastan, an impoverished region scarred by war and ruled by diverse religious and tribal communities. As part of his preparations, he enters a stunningly real conflict-mapping simulation that allows him to see the results of his on-the-ground decisions within hours. What he learns shocks him. His initial efforts to take control of the situation--by establishing a secure forward operating base, pressuring the local population to support his soldiers, providing armed escorts to government leaders, and taking the fight to the enemy--lead to chaos, increasing the danger to his troops and making the insurgents more numerous and deadly. He consults with his two mentors, a battlehardened war fighter and a provocative devil's advocate, then rewinds the scenario and tries again. And again. But whatever he does falls short of effective counterinsurgency, leading to more violence and to consequences he never expected. He grows frustrated, unsure if he and his soldiers can do anything at all to defeat the enemy and claim victory. It's only when he discards obsolete strategies and old measures of success and formulates a nontraditional--and more cold-blooded--approach that his efforts gain traction and the insurgency starts to weaken. He begins to see that effective counterinsurgency demands a new way of thinking. And a new way of fighting. In the tradition of military classics such as "The Defence of Duffer's Drift," this powerful parable illustrates the urgent need for military leaders to rethink how they fight contemporary conflicts. It reads like a thriller, with a cast of vivid characters, even as it puts forward...
