Reviews

Comprehensive guideline for ebook fans. I have read and i am certain that i am going to going to go through yet again yet again down the road. You wont truly feel monotony at whenever you want of your own time (that's what catalogs are for concerning when you check with me).
(Keegan Abernathy)

THOMASON CIVIL ENGINEERING COLLEGE, CALENDAR

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1871 Excerpt: .Tie-beam; (i), At the King-head; (c), At the foot of the King-post. 7.--What is the difference between a Scarfed Joint and a Plain-fished Joint? 8.--What should be the thickness of the cheeks of a mortise compared with the thickness of the beam it is on? 9.--What are the contrivances used to prevent the sliding of pieces of Timber on each other? 10.--What are the most efficient means of protecting iron from rusting when used in combination with timber? EARTHWORK--May. Examiner.--Eksign P. Keat. 1.--What circumstances regulate the degree of slope to be given to the slopes of excavations and embankments? 2.--Are similar slopes generally given to the sides of excavations and embankments in the same soil? Or is any difference ever made in practice, and why? 3.--What is meant by the Angle of repose of soils? Are there any advantages in giving the side slopes of embankments a wider base than required by the angle of repose? 4.--When water is first admitted into a newly cut channel, it is likely to percolate through the soil if the latter be soft. If so, how may this be prevented? 5.--Explain what is meant by side cuttings and spoil banks. 6.--An embankment may be constructed either beginning at one end and depositing the earth to the full height at once and so proceeding with the construction longitudinally, or by laying down the earth in thin layers along the whole length and so constructing the work vertically. What are the...
